TO PROMOTE MARKSMANSHIP.
Changes in Membership of the Rifle Practice Board.
The War Department has announced a number of changes in the membership of the national board for the promotion of rifle practice. Lieut. Commander William S. Sims, Inspector of target practice, United States Navy, has been designated a member of the board, vice Lieut. Mark L. Bristol, U. S. N., who has been ordered to sea duty.
Brig. Gen. Carl A. Wagner, Inspector of rifle practice for the state of Michigan, and Gen. George W. Winstate of New York have been appointed members of the board of directors, vice Maj. Gen. Charles F. Roe, commanding the National Guard of New York, and Col. Henry M. Taylor, assistant adju- tant general of Ohio, have been appointed members of the board from the country at large.

Cuba Buys Its Bonds.
Information has been received in New York that the treasury department of the republic of Cuba has purchased, on account of the loan tax, and turned in for cancella- tion \$1,000,000 par value of the 5 per cent loan of 1904. The bonds were purchased in the open New York market at an average price of 100 1/2. The purposes of the pur- chase of the secretary of the treasury of Cuba, Rius Rivira, is not made clear in the report of the transaction which reached this city. The bonds netted the Cuban government about 88 some sixteen months ago, and their repurchase at about 100 1/2 within so short a time appears a high price.
Cuban government 5 per cents are subject to call at par in 1910. The advances from Havana are to the effect that the country's credit will be strengthened by the operation; but in view of the issue price and the premium paid to retire the bonds the sav- ing in interest to 1910, when the bonds can be retired at par, is not much. Bankers who were identified with the original flotation said yesterday that they had nothing whatever to do with the purchase by the Cuban government.

Northwestern Railway Extension.
Eugene E. Osborn, vice president of the Chicago and Northwestern railway, an- nounced in New York, yesterday that con- tracts have been let for 300 miles of extensions. The most important new line to be built is one running from the extreme western end of the system at Casper, Wyo., to Lander.
